***Thank you to everyone*** who has helped with volunteering to read, donating snacks, and books. This is a wonderful community outreach program our church has offered to do.

## TIPS FROM THE GREEN TEAM

### \*5 PLANTS TO REPEL MOSQUITOES\*

1. **LAVENDER** (*Lavendula angustifolia*) - The same sweet perfume-like scent of Lavender that helps us humans relax and sleep deeply is an offensive pungent odor to mosquitos and other insect pests.
2. **CATNIP** (*Nepeta cataria*) - All members of the Nepeta family will repel mosquito pests, but the variety known as CATNIP contains the most concentrated amount of nepetalactone, which repels mosquitoes SO effectively that it is used in many commercial mosquito sprays. In fact, a study by Iowa State University found catnip to be ten times more effective than DEET.
3. **MARIGOLDS** (*Tagetes lucida*) - Marigolds, especially Mexican marigolds, contain pyrethrum, which is a common ingredient in insect repellents and insecticides. Mosquitoes and many other garden pests are deterred by the scent of these annuals.
4. **ROSEMARY** (*Rosmarinus officinalis*) - Rosemary not only repels mosquitoes, but

also ticks and many other insects. When enjoying a cozy fire, snip off some sprigs of rosemary and toss them into the fire to repel insects wherever the smoke blows.

5. **BASIL** (*Ocimum americanum*) - The strong scent of all varieties of basil are natural mosquito repellents. They also repel deer and rabbits.
